After completing my bachelor's degree in 2018 and my master's degree in 2022, I discovered my passion for software development. I began my programming journey in the last quarter of 2022, building on over 4 years of engineering experience. My career has included both technical office and on-site roles, allowing me to develop diverse skills across various disciplines. Since transitioning to software development, I have been actively improving my skills as a proficient developer and problem solver. My focus is on supporting my personal growth and achievements while delivering impactful, meaningful solutions that benefit society and empower those around me.

WORK

June 2024 – June 2025

Full Stack Developer, Faturamatik Electronic Money and Payment Institution Inc.

Worked as a full-stack developer on the sigortalarburada.com project, an insurance platform built to improve user experience, simplify policy management, and make it easier for users to receive insurance offers from multiple companies.

Apr 2023 – Feb 2024
11 mos

Full Stack Developer, DISC Academy Education and Software

I had the privilege of working with a prominent HR company renowned for its comprehensive approach to personality tests and talent assessments. As a full-stack developer, I actively contributed to the development of the yetenex.com project, a dynamic job portal with application tracking system(ATS).

Dec 2019 – Jun 2022
2 yrs 7 mos

Transportation Engineer, Emay International Engineering & Consulting

Applied BIM knowledge in various civil and transportation engineering projects. Participated in international meetings and negotiations. Notable contributions included work with the Istanbul Metro-Rail Systems Design Group, as well as producing architectural detailing, technical drawings, and presentations.

Oct 2018 – Dec 2019
1 yrs 3 mos

Civil Engineer, Prizma Engineering

Specialized in traffic safety planning and signage for highway design projects. Conducted and planned drainage system analysis on junctions.

EDUCATION

Feb 2020 – Oct 2022

Masters of Science, Engineering

Isik University, Istanbul

Thesis Topic: Determining The Highway Capacity and Examining The Improvements Via Connected and Autonomous Vehicles

Feb 2019 – Jan 2021

Associate's degree, Web Development

Anadolu University

Concentration: Web/Multimedia Management and Webmaster

Sep 2011 – Jun 2018

Bachelors of Science, Engineering

Isik University, Istanbul

Concentration: Highway Design and Public Transportation

LICENSURE

Issued Mar 2023

Wissen - BAU Bright Bootcamp, Full Stack Developer Certification, Certificate of Achievement

Issued Mar 2022

HAREC-Amateur Radio Certificate, CS: TA2KUC

Ministry of Transport and Infrastructure, Republic of Turkey

Issued Aug 2020

UAV-1 Commercial Pilot Certificate, ICAO-Approved
Geomes Engineering, Credential ID: TR-IHA1T2749951
